## HIGH PERFORMANCE LUBRICANTS

<b>Product:</b>	<b>Semi Synthetic 10w/40 ACEA A3 B4</b>
<b>Product code:</b>	(PLA1040199)
<b>Revision:</b>	Version 1 2018

**Product Description:**

10W-40 Semi Synthetic Engine Oil is a fuel-efficient multi grade engine oil manufactured from a precisely balanced blend of top-quality mineral and synthetic base stocks and performance enhancing additives. The high lubricity of 10W-40 Semi Synthetic Engine Oil provides lower internal friction for reduced engine wear while the relatively low viscosity improves flow rates and hydraulic tappet performance during cold start and engine idling.

<b>Benefits:</b>	<b>Applications:</b>
<ul style="list-style-type: none"><li>• Semi-synthetic formulation</li><li>• Stay in grade properties</li><li>• Excellent high and low temperature stability</li><li>• Improved fuel efficiency</li><li>• Improved oil consumption and emissions</li><li>• Superior performance to mineral based oils</li></ul>	10W-40 Semi Synthetic Engine Oil is suitable for normally aspirated and turbocharged engines. Suitable for engines that run on petrol or diesel fuels. Suitable applications include passenger cars and light commercials particularly modern vehicles. 10W-40 Semi Synthetic Engine Oil is miscible with synthetic and mineral based engine oils.
